

# STEAM-PRESSURE™

## NEW PATENTED TECNOVAP SYSTEM

by **TECNOVAP**  
L'ARTE DEL VAPORE®

**High temperature steam 183° C 10 bar, water injection 145° C, high pressure water 150 bar.**

**10 bar**

THREE PHASE  
HYDRO SYSTEM

THREE PHASE STEAM GENERATOR

**GB** **THREE-PHASE STEAM GENERATOR with radio control system**, automatic refilling, tubular stainless steel frame with watertight protection IPX5, continuous steam flow, detergent injection and direct water supply connection. Digital device with pressure gauge and hour meter. Optional: overheated water injection.

**THREE PHASE HYDRO SYSTEM** pressure 150 bar, flow 4/11 litri/min - electric - no gasoline - no propane gas. Perfect for any indoor environment, i.e. food industry.

**I** **GENERATORE DI VAPORE TRIFASE con sistema di controllo radio**, ricarica automatica, telaio tubolare in acciaio inox con grado di protezione IPX5. Vapore continuo, iniezione di detergente. Attacco per rete idrica. Strumento digitale con manometro e contatore. **Optional: iniezione acqua surriscaldata.**

**MODULO IDRO TRIFASE** pressione 150 bar, flusso 4/11 litri/min **Elettrico - No gasolio - No gas propano** ideale per ogni ambiente interno, ad esempio industrie alimentari.

**D** **DREIPHASIGER DAMPFGENERATOR mit Fernsteuerung**, automatischem Auffüllsystem, Edelstahlrohrrahmen mit Schutzgrad IPX5, kontinuierlicher Dampf. Reinigungsmittelinjektion, direkter Anschluss an das Wassernetz, Digitalapparat mit Druckmesser und Stundenzähler. **Optional: Heißwasserinjektion.**

**DREIPHASIGES HYDRO SYSTEM** Druck 150 bar, Fluss 4/11 Liter/min - **elektrisch - kein Diesel - kein Propangas** - ideal für jeden Innenbereich z.B. Lebensmittelindustrie.

**F** **GÉNÉRATEUR DE VAPEUR TRIPHASÉ avec système de control- radio**, recharge automatique, carrosserie tubulaire en acier inox avec imperméabilité IPX5. Vapeur continue, injection de détergent. Connection directe au réseau hydrique. Dispositif digital avec manomètre et compte-heures. **Optional: injection d'eau surchauffée.**

**SYSTÈME HYDRO-THRIPHASÉ** pression 150 bar, flux 4/11 litre/min, **électrique - sans gasoline - sans gaz propane**. Parfait pour chaque milieu, comme pour exemple: le secteur alimentaire.

**ES** **GENERADOR DE VAPOR TRIFÁSICO con sistema de radiocontrol**, recarga automática, telar tubular en acero inoxidable con impermeabilidad IPX5. Vapor continuo, inyección de detergente. Conexión directa a la red hídrica. Instrumento digital con manómetro y cuentahoras. **En opción: inyección de agua calentada.**

**MÓDULO HIDRO TRIFÁSICO** presión 150bar, caudal 4/11 litros/min. - **eléctrico - ni gasoil ni gas propano**. Ideal para cualquier ambiente interno, por ejemplo industrias alimentarias.

# STEAM-PRESSURE™

Hydro system technical data	
Stainless steel Boiler	AISI 304
Body	AISI 304 (BA)
Pressure	30 - 150 bar / 3-15 MPa
Motor	1,5 kW (pump 4l/min.) - 3 kW (pump 11 l/min.)
Water flow	4 / 11 l/min.
Temperature	From 50° to 100° C - From 122° to 212° F

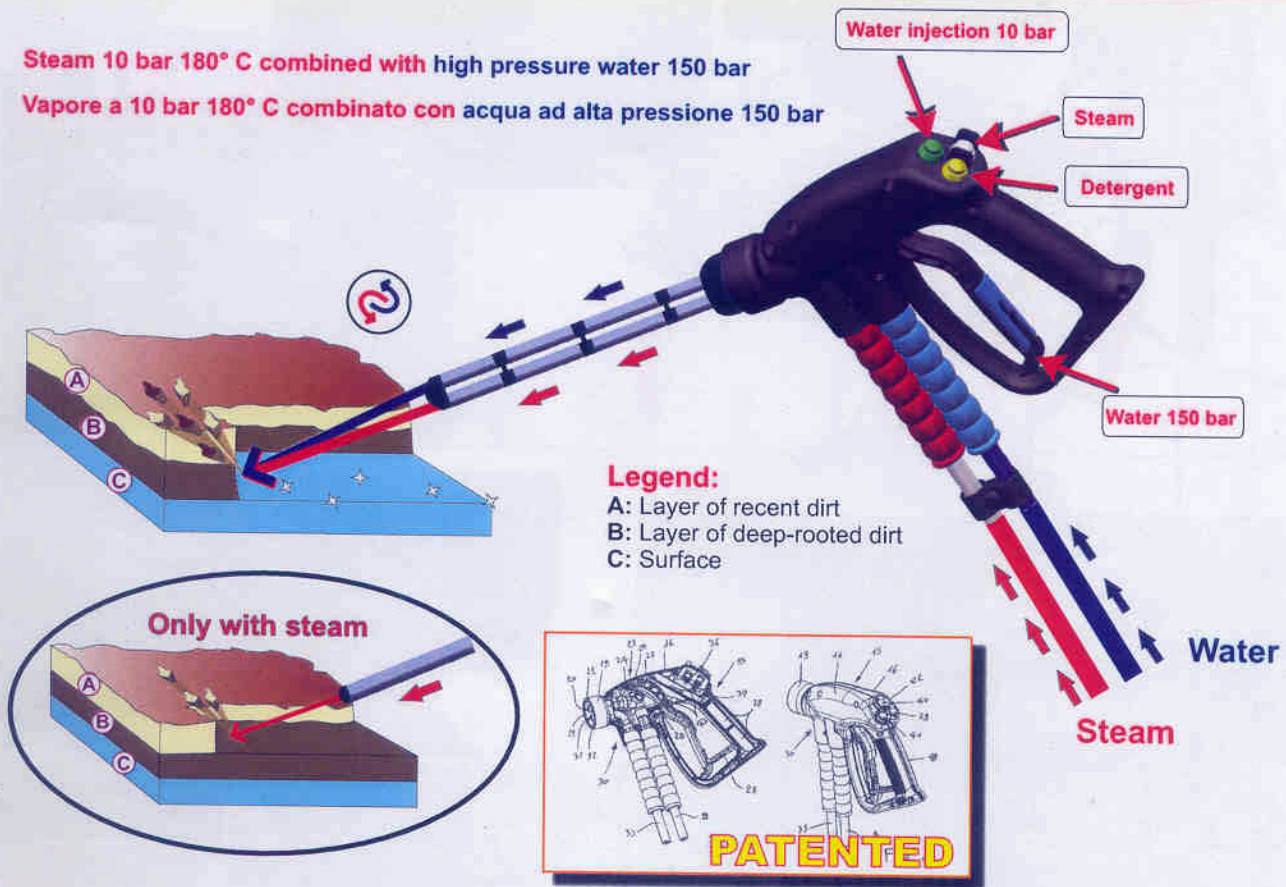

Steam Pressure technical data	
Stainless steel Boiler	AISI 304
Body	AISI 304 (BA)
Boiler volume	11 - 12,5 - 14 l
Water tank	40 l
Detergent tank	20 l
Operating pressure	10 bar
Steam production g/min	194 - 291 - 388 - 582 - 776 - 970
Steam production Kg/h	11,5 - 17,5 - 23 - 35 - 46,5 - 58
Steam T°	183° C
Detergent T°	90-145° C
Power supply	400 V 3~ - 50/60 Hz
Boiler output kW	7,2 - 10,8 - 14,4 - 18 - 21,6 - 28,8 - 36
Power cord	8 m
Weight	114 Kg
Packaging	60x90x125 cm
Quantity pallet/unit	1
